Z Fit™ prequalification tool Immediate risk information at your fingertips

At Zurich Integrated Products (ZIP), we're committed to using technology to simplify your work life and better serve your clients. That's why we've developed Z Fit, a Web-based prequalification tool that can help you determine if ZIP has the right solution for your clients' insurance needs.

Z Fit removes the "guess work." When you need an immediate response to whether your insured's business meets ZIP's product appetite, Z Fit can help you:

- Quickly and easily confirm if the risk meets ZIP's target appetite;
- Secure your submission in the workflow process, if the risk qualifies;
- Submit the application for underwriting review;
- Reduce our turnaround time from submission to quote and quote to bind; and
- Serve your clients more efficiently.

At your convenience

Z Fit is a password protected tool, accessible through ZIP's Web site—24 hours a day, seven days a week. Simply log on, answer a few basic questions about the insured's business and insurance coverage needs and within minutes—Z Fit will indicate if the submission fits the requirements for ZIP's risk categories.

If the account is eligible, you'll be prompted to submit the account online via the Z Fit tool, along with loss run and other required submission information, to Zurich's Intake Center for underwriting review.

It's that easy. Z Fit offers you clarity of ZIP's appetite to match to your client's risk and the ability to register that risk – all within minutes. Which leaves you more time to manage your other responsibilities.
