

## Internship Program

### We saved a spot for you in the real world

You work hard to get the education you need. You want to make it in the real world. But first it's time to take one more test, if you are currently entering your sophomore, junior or senior year of college:

- Do you like the challenge of solving problems?
- Are you willing to work hard and be paid?
- Are you a good communicator?
- Can you manage your time effectively?
- Are you a self-motivated, independent thinker?
- Do you have a minimum cumulative GPA of 3.0 on a 4.0 scale or 4.0 on a 5.0 scale?

If you answered "yes" to all of these questions, why not set your sights on a summer internship where you'll get the chance to tackle real projects (not busy work) . . . learn valued skills (not filing) . . . and grow with a global company that's an insurance-industry leader (not a wannabe)?

### Check out the Zurich Internship Program

It's a structured (not rigid) program, where you'll work alongside talented professionals and handle duties (still no filing) just as if it were a full-time position. Along the way -- May to August -- you will work with your mentor to chart a course for your development and assess your progress. In the end, you'll come away with a three-month experience you won't forget, but will want to put on your resume. Please note that summer interns do not receive housing or relocation assistance.

"This was not your average internship. You were doing real work. I always knew that I was exposed to real work throughout my internship, but hearing it from a recruiter was even further proof ... My internship has jump started my career!" -- former Zurich intern
