

Traditional and leading-edge property programs

Onshore property

Zurich Global Energy® provides onshore property insurance programs for companies in the oil and gas, petrochemical, natural resources, mining and power generation industries. Our team of property specialists includes professionals in onshore property risks who specialize in delivering property coverages on a stand-alone basis or in blended programs.

Our customers

Zurich tailors property programs for a variety of onshore energy operations, from large multinationals to mid-sized energy companies, including:

- Chemical plants
- Petrochemical plants
- Pipelines
- Utilities
- Gas plants
- LNG plants
- Independent power producers
- Fertilizer plants
- Hydroelectric plants
- Cogeneration plants
- Waste energy plants
- Electric generation cooperatives
- Terminals
- Mining
- Wind facilities
- Bio fuels, solar energy, combined cycle plants

Our coverages

Our coverages include:

- Physical damage (all risks)
- Time element
- Boiler & machinery
- Construction

Specialized risk engineering and claims services

Onshore property policyholders have access to a team of risk engineers* and claims specialists with extensive experience in the energy insurance field. Our risk engineers can work with you to help evaluate exposures, as well as help design and implement loss control programs to address each customer's distinct needs. Zurich's seasoned claims professionals have a proven record of success helping energy companies develop and execute highly effective claims strategies.

Serving your needs

Our specialists are in many locations virtually around the globe, including: Atlanta, Baltimore, Bermuda, Chicago, Glendale, Hong Kong, Houston, London, Melbourne, New York, San Francisco, Seattle, Singapore, Toronto and Zurich.
