

Upstream, first-party coverages

Exploration and production

Zurich Global Energy® provides various forms of property insurance for companies involved in the exploration and production of oil and gas worldwide.

We offer the high limits energy companies need and the streamlined coordinated access they want to structure sound risk management solutions. Our energy specialists can develop programs that pair upstream property insurance with primary casualty (domestic and foreign), onshore property and marine liability and cargo coverages to provide custom solutions for energy risks.

Our customers

Zurich tailors upstream property programs for:

- Exploration and production companies
- Drilling, workover and well service companies
- Energy service contractors – onshore and offshore
- Pipeline operations

Our coverages

Our coverages include:

- Offshore fixed platforms and pipeline physical damage
- Onshore and offshore drilling rig physical damage
- Control of well and extra expense
- Loss of production income/loss of hire

Risk engineering and claims services

Zurich offers our upstream property policyholders the services of experienced risk engineering professionals* who specialize in helping energy companies assess and mitigate exposures. These industry veterans can work with an account to evaluate exposures, identify loss scenarios and assess safety-related communications.

Upstream property claims are handled by specialists who are intimately familiar with the unique issues involved in exploration and production-related losses. Our skilled claims staff effectively addresses pre-loss planning, as well as post-loss assessment. And Zurich's global network helps to ensure the local representation and service that customers require, wherever losses occur.

Serving your needs

Our specialists are in many locations virtually around the globe, including: Atlanta, Baltimore, Bermuda, Chicago, Glendale, Hong Kong, Houston, London, Melbourne, New York, San Francisco, Seattle, Singapore, Toronto and Zurich.
