

# Commercial Construction Contractors

What if teams of experienced professionals provided commercial construction contractors with total risk solutions that combines broad capabilities with flexibility, responsive service and creative thinking?

At Zurich, we understand our customers simply can not anticipate every sudden change to a construction project. But with careful planning and insurance coverage that is relevant to today's world, customers can better deal with the unexpected. Because we think about what could go wrong, our customers can think more about what could go right!

## Targeted customer profile

Zurich offers comprehensive insurance programs specifically designed to meet the needs of mid-sized and large construction customers including:

- General contractors
- Heavy and highway contractors
- Artisan/specialty trade contractors
- Construction managers
- Design-build firms
- Owners or sponsors of both public and private construction projects, including:
  - Wrap-ups
  - Owner controlled insurance programs (OCIPs)
  - Contractor controlled insurance programs (CCIPs)
  - Joint ventures

(Builders of single-family and other residential projects should see our fact sheet on Residential Home Builders.)

## Coverage features

Zurich provides risk management solutions that include a broad range of coverages such as:

- Workers' compensation and employers' liability
- General liability
- Auto liability and physical damage
- Umbrella
- Domestic and international builders risk including master policy and project specific
- Construction property and inland marine
- Subguard®, an innovative alternative to traditional performance and payment bonds
- Professional errors and omissions
- Environmental
- Owners' and contractors' protective
- Railroad protective liability

For more information on insurance for the commercial construction industry, please contact your broker or Zurich's regional executive.

## Risk engineering services\*

Zurich offers comprehensive and consultative risk management services to identify, evaluate and reduce the risks across a customer's business. Many of our risk engineering consultants have substantial construction industry experience and have implemented and administered highly successful risk management programs.

Services include:

- Risk assessment, program evaluation and exposure identification
- Consultative solutions designed to mitigate and reduce losses
- Access to industry professionals who specialize in such areas as safety, fleet, quality, contract management, subcontractor management, construction equipment, property damage for construction projects and fixed assets
- Seminars on key issues regarding risk management in the construction industry

## Claims services\*

The two fundamental goals of Zurich's claims group are to prevent losses and to resolve claims quickly and cost effectively. Our knowledgeable and dedicated claims professionals consistently provide responsive service and effective management of loss costs.

Services include:

- 24-hour customer claim reporting and prompt investigation
- Comprehensive managed care program
- Construction dedicated claims consultants and adjusters
- Early return-to-work

- Catastrophic response
- Dedicated construction recovery unit
- Litigation management
- Special investigation unit
- Educational seminars
- Online claims tools and reporting capabilities

## Why Zurich

- Leadership and influence through active participation in key construction and insurance industry associations
- Professionals who specialize in the industry and understand the technical and operational aspects of construction
- Creative solutions aimed to reduce customer's cost of risk while helping to enhance their profitability
- Innovative coverage policies and extensions that address industry-specific needs
- Customized programs that fit the unique risk appetite and coverage needs of the customer
- Integrated underwriting, risk engineering and claim account teams
- Domestic and global coverage capabilities
- Zurich's financial strength, which is rated "A" (Excellent) by A.M. Best and "A+" (Strong) by Standard & Poor's
