

Upstream, first-party coverages

Exploration and production

Zurich's energy group provides various forms of property insurance for companies involved in the exploration and production of oil and gas worldwide.

We offer the high limits energy companies need and the streamlined coordinated access they want to structure sound risk management solutions. Our energy specialists can develop programs that pair upstream property insurance with primary casualty (domestic and foreign), onshore property and marine liability and cargo coverages to provide custom solutions for energy risks.

Our customers

Zurich tailors upstream property programs for:

- Exploration and production companies
- Drilling, workover and well service companies
- Energy service contractors – onshore and offshore
- Pipeline operations

Our coverages

Our coverages include:

- Offshore fixed platforms and pipeline physical damage
- Onshore and offshore drilling rig physical damage
- Control of well and extra expense
- Loss of production income/loss of hire

Energy-focused risk engineering and claims services

Zurich understands the highly technical and often complex risk engineering and claims needs of today's energy customers, which is why our energy team includes some of the most experienced and capable talent in the insurance business.

Our energy risk engineers* work in close collaboration with customers to help provide thorough assessments of risk as well

as recommendations to help reduce losses. As of May, 2011 our global network of more than 800 risk engineers includes 20 North America-based members with specific energy industry experience, including individuals who worked in the energy industry before joining Zurich. Some bring more than 20 years of experience to the table – experience that counts when the goal is to reduce the risk to a customer's property and people.

Zurich's experienced energy claims professionals work equally hard to help customers after a loss. Our Executive General Adjusters average 25 years experience and possess extensive knowledge of exploration and production, drilling, work over, well service, energy service and pipeline operations. Our energy claims team members are part of a Zurich Claims Network of more than 3,500 professionals in North America and more than 8,000 around the globe.

Serving your needs

Our specialists are in many locations virtually around the globe, including: Buenos Aires, Chicago, Dubai, Hong Kong, Houston, London, Los Angeles, Melbourne, New York, Singapore, Toronto and Zurich.
