

ZURICH

meeting
the
needs
of
customers

It's the reason we're transitioning to a Zurich portfolio product. The move to a single, high-quality package policy enables us to upgrade our systems and make possible more streamlined, accurate and timely policy issuance.

For this reason you've received notification in accordance with state regulations. Keep in mind, however, Zurich North America is prepared to continue to address your needs through the use of the new Zurich portfolio product.

significant benefits

- updated forms and current industry language
- one operating platform means we can be more responsive to your needs
- the flexibility to customize coverage to address your specific risk management requirements
- greater speed and efficiency
- reduction of errors
