

# America's infrastructure

## Issues and challenges

America's infrastructure has been in the news and on the minds of risk managers in many industries. Aging and poorly maintained infrastructure may expose businesses to multiple risks, increased costs and lost productivity.

Traditional risks such as bodily injury and property risks, emerging risks which may cause business interruption, and systemic risks related to the interconnected nature of infrastructure systems may increase in this aging environment.

It is important to keep on top of the factors that impact America's business environment. To help you understand the challenges, Zurich has developed marketing assets that address infrastructure issues affecting business today.

## Key sectors

There are four key sectors of critical infrastructure that could impact economic activity:

- Transportation
- Energy
- Water
- Communications
