

Revised post-bind broker compensation disclosure statements

Please be advised that as of June 20, 2011, Zurich will have revised post-bind broker compensation disclosure statements. The statements will no longer include access codes required to access the website to view the compensation explanations specific to policy-type. Instead, customers will be directed to a new agent/broker compensation disclosure website that will provide general compensation ranges by NAIC lines of business.

Should you have any questions, please contact Joseph Murphy, Head of Distribution and Strategic Relationships at (847) 240-2328.
