An environmental liability insurance solution
Now your environmental insurance coverage can easily change with your business needs.
Consider the possibilities...

Your company acquires property to expand its operations. During construction, contamination from a previous use of the site is discovered. Your construction falls way behind schedule while you negotiate with regulatory authorities to find a solution.

Your company receives a complaint from residents in the community alleging that you have caused contamination resulting in bodily injury and property damage. You must mount an expensive defense, even though it is likely that the contamination migrated through your property from an adjoining industrial facility.

Your company has a sudden, on-site release that, despite your efforts, has caused the evacuation of nearby residents and impacted neighboring wetlands.

Each of these hypothetical examples can happen – and indeed often have happened – to companies just like yours. In today’s business climate, the scope of environmental impairment includes industries once thought to be invulnerable to environmental risks. Risks like these can crop up suddenly or lay dormant, unknown and unexpected, for years. Either way, they can represent a serious threat to any business.

With the risk of environmental exposures growing, your choice of an insurer has never been more critical. You need an insurer like Zurich that can provide financial stability, along with longevity in the marketplace and a proven track record of product innovation.

Z Choice can be fully tailored to give you exactly the coverages you need for your fixed-facility exposures. And pay only for the coverages you choose.
Designing coverage to fit your needs

Zurich offers environmental coverages designed by an insurer with the depth of experience and knowledge to fully understand the risks you face and how to deal with them.

Z Choice is fully customizable – allowing you to secure exactly the coverage you require for your fixed-facility exposures. And you pay only for the coverages you choose.

Begin by selecting among core coverages such as cleanup costs, bodily injury, property damage or natural resource damages for new or existing pollution events. Then add to your program from the portfolio of optional coverages such as business interruption, mold, transportation of materials, financial assurance and many others.

Z Choice also eliminates emergency expenses sublimits and provides a crisis management expense coverage supplement.

You can even customize individual coverage limits up to an aggregate limit of $25 million.
Key Z Choice advantages
When it comes to protecting your company against environmental risk, the stakes could not be higher. You need more than just an insurance policy – you need a program that offers distinct advantages:

- **Zurich** offers the financial strength you need in today’s challenging environment. Zurich Insurance Group has a conservative, well-diversified portfolio of investments. Our investment strategy has been to manage assets to liabilities rather than maximizing return on assets.*

- **Longevity.** Zurich has been providing underwriting excellence for close to 140 years. And offering environmental insurance for over 21 years. Many of our underwriters have experience far beyond this and helped to establish the environmental insurance industry.

- **Simplicity.** Z Choice provides an understandable solution to complex business decisions. Using a single policy format means Z Choice is easy to read and understand. You know the coverages you have by just reviewing the declarations page.

- **Flexibility.** Customize your environmental coverages to build the policy your business requires. And it’s easy to add and delete coverages as your needs change.

- **Cost-efficiency.** Because Z Choice is fully customizable, you pay only for the coverages you need.

- **Local access.** Our underwriters are based in your community, so they are knowledgeable about the local environmental landscape and better able to meet your timeframe. Our underwriting offices are located in New York, Boston, Philadelphia, Atlanta, Chicago, Houston, Denver, San Francisco and Toronto.

Services built to respond
Zurich’s risk engineers, claims specialists and risk management team are an integral part of the Z Choice solution. Our team works with you to assure your environmental risk management needs are met.

Our experienced claims specialists have the high-level technical expertise to handle any environmental claim. They understand the urgency of the situation and have developed a network of resources to handle most types of environmental losses.

Zurich’s environmental claims team is experienced in managing large catastrophic claims that may involve managing hundreds of litigants and require specialized skill in allocating liability among parties.

Zurich Environmental Emergency Response (ZEER) gives Z Link policyholders direct access to a dedicated team of professionals at no additional cost that are experienced in the areas of environmental emergency response, investigation and remediation of accidental releases of hazmat and other regulated materials.

Experience you can depend on long term
Because some of the worst environmental damage occurs slowly – seeping into the ground or water over time – problems may go undetected for decades. To protect your business, you need an insurer with the experience and staying power to be there when you need it.

Zurich has been helping customers manage environmental liabilities for more than 21 years. We’ve built a team of environmental insurance professionals with the knowledge base and talent you need. And we’re a recognized leader in the marketplace – with the global reach, financial strength, stability and experience to anticipate and help prevent environmental exposures.

Z Choice – The right choice for your environmental coverage needs

When it comes to choosing the right environmental insurance program for your company, we’re confident that you’ll find the right choice is Z Choice:

• A program providing security built on solid industry knowledge and strong professional experience of engineers, scientists and environmental attorneys

• A program that gives you the flexibility to tailor coverage to your company’s needs, at a competitive price that makes good business sense

• A program equipped with professional risk engineering and claims services that stand among the best in the environmental insurance business

All provided by a company with the financial stability to be there when you need it.
This is intended as a general description of certain types of insurance and services available to qualified customers through the companies of Zurich in North America, provided solely for informational purposes. Nothing herein should be construed as a solicitation, offer, advice, recommendation, or any other service with regard to any type of insurance product underwritten by individual member companies of Zurich in North America, including Zurich American Insurance Company. Your policy is the contract that specifically and fully describes your coverage, terms and conditions. The description of the policy provisions gives a broad overview of coverages and does not revise or amend the policy. Coverages and rates are subject to individual insured meeting our underwriting qualifications and product availability in applicable states. Some coverages may be written on a nonadmitted basis through licensed surplus lines brokers.

Risk engineering services in the U.S. are provided by Zurich Services Corporation.
