## How RiskIntelligence Express can help you

Understanding all your cost drivers is crucial in a competitive business world. Zurich RiskIntelligence Express is an easy-to-use application that allows you to “point and click” to view selected risk information at a glance and generate reports for selected data on demand, giving you convenient access and understanding to the key drivers of your claim costs. The new software and newly redesigned user interface make it easy to use. RiskIntelligence Express can be ideal for companies with moderate loss frequency and less complex claims.

Features include:

- View of payment history and reserves
- Ability to capture, analyze and structure the risk information
- Locating adjuster information
- Daily updates to loss information
- Claim number search
- Real time adjuster notes
- Loss runs with view, print and download to Excel capabilities

Since you have greater control over total cost of risk with access to RiskIntelligence Express, it may help reduce lost productivity and cash flow, thereby increasing profits.
